***Is my dog appropriate for a group camp experience?*** In general, as long as you are both willing and able to keep your dog sufficiently managed/under control to prevent your dog from negatively impacting others' safety or enjoyment, they are welcome to attend. We do reserve the right to remove dogs from camp if this is not the case, but will first work with you to help resolve issues if possible. We do encourage you to consider whether your dog may be too fearful or reactive to *\*enjoy\** the camping experience, and if so, to leave this dog at home. Please feel free to contact us with any questions.

## *Basic Camp Rules:*

1. No puppies under 14 weeks shall attend Camp.
2. Shock collars are not permitted on camp grounds. Campers will be expected to conduct themselves in accordance with DSA's position on punishment, refraining from physical or harsh verbal corrections of the dog during training.
3. Campers are not permitted to use the confidence course or shooting range. No guns permitted at camp.
4. Cars may be driven to cabins for unloading and loading. Cars may be left next to cabins as long as their presence does not impede the flow of handler and dog movement and weather permits. You may be asked to move your car to a designated parking area for the duration of camp, at the staff's discretion.
5. Dogs are not allowed in the Dining Hall for any reason. (They are allowed in all other facilities.)
6. If a dog is left in a vehicle, proper shade and ventilation **MUST** be provided or the dog will be removed from the vehicle by whatever means necessary.
7. Food left in cabins **MUST** be in air tight containers to discourage bears.
8. Dogs can only be tethered to oneself. At no time will a dog be tethered and unattended. Dogs cannot be left outside in exercise pens overnight.
9. Hair dryers and curling irons can **ONLY** be used in the Bath House.
10. Smoking will be permitted only in the designated smoking area, which will be outdoors and away from meeting areas.
11. If you cook for your dog, you must provide your own camp stove. You will not be allowed to use the Camp Kitchen for cooking. There is a huge ice machine on site; we encourage you to bring your own cooler for storage of any food and/or sodas. There is a single household-sized refrigerator available for limited camper storage.
12. A licensed Lifeguard must be present when people swim. There will be designated swim time allotted with a Lifeguard present.
13. If your dogs are not reliably potty trained, or have marking habits, they should be crated or directly supervised at all times when in the cabin or other facilities.
14. You are responsible for monitoring your dog and cleanup up all fecal matter deposited anywhere on the premises (be sure to bring a flashlight in order to facilitate "scooping" during evening hours). Dogs are not permitted to urinate or defecate on any facilities or structures. Any potty "accidents" indoors must be immediately and sufficiently cleaned up, using appropriate enzymatic cleaner – this also applies to any

facility surfaces (walls, porch posts, benches, etc.) even if outdoors. There will be enzymatic cleaner and towels provided in all cabins and meeting areas.

15. No dog poop is to be placed in general trash receptacles. Dog poop can only be put into containers marked for dog poop.
16. Dogs will not be allowed on any table surface unless for demonstration purposes.
17. Be considerate of those around you. You are expected to respect that other people and dogs may need more space around them. You and/or your dog should only approach other dogs or people with their permission.
18. Camp leash policy. Generally, campers find it useful to have dogs on leash most of the time, and then unleash for specific training activities. *AFTER the initial welcome briefing on the first morning of camp*, dogs will be permitted off leash, pending the handler is directly and actively supervising the dog, and has sufficient verbal control of the dog. [*What is "sufficient verbal control?"*: Any off-leash dogs should have a solid recall, be prevented from any unplanned approaches/ interactions with another dog or person, be prevented from approaching or chasing wildlife, and be sufficiently monitored to ensure the handler is aware of any cleanup responsibilities and can locate the cleanup area.]

\* You will also be provided with additional pre-camp materials which will further explain and provide guidance about your stay at camp, making the "communal" living environment of camp enjoyable for all, suggested packing lists, etc.
