

Treibball Beginner I:

- \_\_\_ Go to mat that is 20' away (across a large room)
- \_\_\_ Push (on cue) at least 3 different objects other than a ball
- \_\_\_ Will remain stationary on mat for 5 count
- \_\_\_ Will push ball toward the handler from 5' away without biting/pawing it
- \_\_\_ Handler recognizes the signs that their dog is getting over stimulated, understands how to keep the dog calm and how to teach an "off switch" and self-control to the dog using indirect access exercises
